MyRespects

PROFILE

MyRespects.com is a unique crowdfunding site, intended to fund all end of life expenses, including palliative care, medical costs, and funeralization expenses.

Creating a free fundraiser with MyRespects is an invitation, encouraging a grieving community to gather and offer support. This can be done by gifting funds, or by sharing photos or memories.

Through partnerships with organizations that provide end of life care and services, MyRespects connects families with not only the support of their loved ones, but also with vetted professionals in their immediate area.

This multi-faceted approach to crowdfunding sets MyRespects apart from other funding platforms, providing a free, comprehensive call to action.

MyRespects understands that caring for elderly or ill loved ones presents many challenges, unique in every experience. During the most difficult times of your life, MyRespects is your leading resource, helping you invite and secure the social, emotional and financial support you need to give your loved ones the level of care they deserve.
